

K-Love broadcasts in Virginia Beach, and my wife and I are listeners. They provide us with quality Christian Broadcasting, and contemporary Christian music. There is currently no other station that can provide the same service. We have been supporters for K-Love for years and all the different duty stations that I have had. It is in the public interest to keep this station because of the positive effect it has when it can broadcast the gospel in a powerful way. Music is a powerful tool to reach young people especially. Please do not displace this station with an alternate LPFM station.
